Psychiatric Institute;	the research exaggerated the
therapeutic effectiveness of the	serum. Only a few changes in the composition
of the blood of schizophrenics we	re established at the Ukrainian Psycho-
Neurological Academy (Protopopov)	. Under the pressure of the political leaders
in Moscow	Professor Protopopov
changed his opinion, and, as is k	nown from the press, now confirms the effective-
	is a Moscow propoganda trick for foreign
consumption.	saw no 50X1
positive results in the treatments	3.
	on the use of sub-occipital puncture inasmuch
Mha	
The use of incompatable blood had	been successfully used for diagnostic purposes.
erior to 1941 the convulsions meth	nod, cardiazol, camphor, and ammonia, were used
in the USSR. electri	ic shock therapy is now in use. It works just
the same and is considerably chear	er and simpler.
